ACADEMIC PROJECTS

E-Commerce Website Testing Project | Jan 2024 – Apr 2024

University Capstone Project | Team of 4

- Designed and executed over 150 manual test cases covering functional, regression, and UI testing for a full-stack e-commerce application.
- Developed automated test scripts using Selenium WebDriver with Java, reducing regression testing time by approximately 40%.
- Reported and tracked 30+ defects in JIRA, collaborating with developers to ensure timely resolution before release.
- Performed cross-browser compatibility testing across Chrome, Firefox, Safari, and Edge.

REST API Testing — Library Management System | Sep 2023 – Dec 2023

Software Testing Course Project

- Built and executed a comprehensive Postman test suite with 80+ API test cases for CRUD operations and error handling.
- Validated JSON response payloads, HTTP status codes, authentication flows, and edge-case scenarios.
- Documented test results and prepared a detailed defect report, achieving 95% test coverage.

Mobile App Manual Testing — Student Task Manager | Mar 2023 – May 2023

Personal Project

- Wrote test plans and test cases for an iOS/Android student productivity app and executed end-to-end testing scenarios.

- Identified and documented 20+ usability and functional bugs with clear reproduction steps and severity ratings.
- Performed usability testing sessions and provided actionable UX improvement recommendations.

CERTIFICATIONS & TRAINING

- ISTQB Foundation Level — Certified (2024)
